

IN IT FOR THE

LONG HAUL.

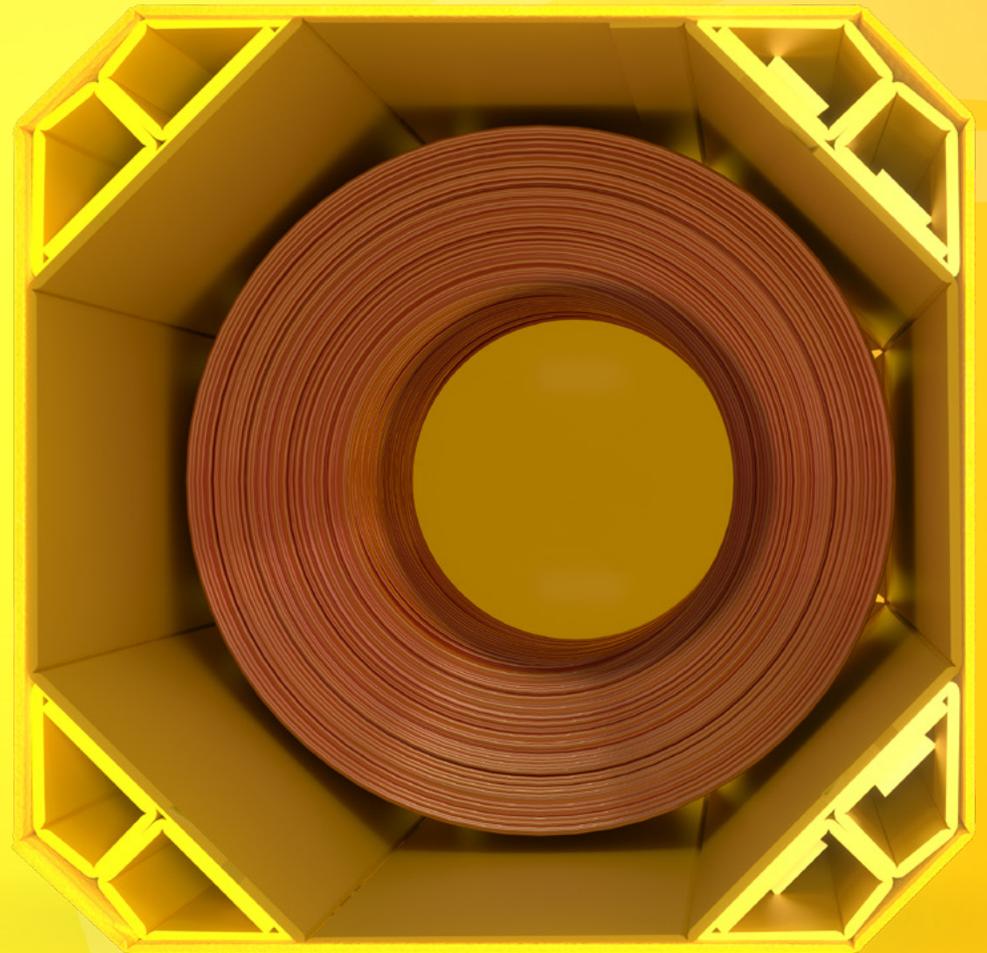

With stronger packaging and more wire, the all-new Marathon Pac Ultra goes above and beyond to keep your production running.

TOUGH ON THE OUTSIDE. EVEN **TOUGHER** ON THE INSIDE.

The industry's best bulk wire system has been redesigned to be even more robust, ensuring your wire arrives safely - and stays that way.

- **Reinforced corners** secure the drum during transportation and prevent tangling
- **Desiccant and internal bag with volatile corrosion inhibitors (VCI)** protect against corrosion
- **Packaging meets ISTA 3E package shipping standards**

GOES FOR MILES. AND MILES. AND MILES.

Born to feed, Marathon Pac Ultra delivers unparalleled feedability that lasts longer than ever before.

- **Now made with 22% more wire** – up to 52 miles of wire in every drum
- **Iconic ESAB octagonal shape** guarantees smooth, uninterrupted feeding
- **Reverse coiling technology** ensures wire comes out straight, providing greater control and perfectly positioned welds
- **Wire solutions for a wide range of grades and types**

WIRED TO WORK FOR YOU.

Easier handling and wire monitoring allow for a more efficient production process with minimal downtime.

- **Designed for simple installation** and quick changeovers
- **Integrated lifting straps** allow for easy maneuvering with lifting yoke or forklift
- **Window on hood and wire level indicator near bottom of drum** let you know when a changeout is needed

ECO-FRIENDLY IMPACT.

Marathon Pac Ultra delivers more wire – with less impact on the environment.

- **Every single component is recyclable,** simply disassemble after wire is depleted
- **More wire capacity per drum** means fewer drums (and less waste) produced

WIRE FEEDING THAT **DOESN'T** QUIT.

SPECIFICATIONS

Weight	1,100 lb. (500 kg)
Dimensions (assembled)	23 x 23 x 40 in. (58 x 58 x 101 cm)
Total Units per Pallet	2 units

ACCESSORIES

Trolley	F103900880
Plastic Dome Hood	F1039U1001
Lifting Device	F102537880
Quick Connect Adaptor Kit with Ceramic Inlet	WWDP

GOES THE DISTANCE.

As part of a full welding solution from ESAB, Marathon Pac Ultra is available for a wide range of wire grades and can be used with optimized welding packages.

- **PURUS™ MIG wire** specially formulated to reduce post-weld cleanup
- **AristoRod™ non-copper-coated MIG wire** for superb feedability, arc stability, and spatter control
- **Spoolarc® a premium range of copper-coated MIG wires** for any quality carbon steel or low alloy application
